Gateweld Head Office and Recycling Yard

Vision

We will work continually to recover, recycle and reuse for better utilisation of resources while maintaining a cleaner environment.

Mission

To safely and efficiently handle our customer's regulated recyclable materials and lower their environmental liability while remaining a leader in recycling industry towards a sustainable green environment.

Company Overview

Gateweld Sdn Bhd, was established on 12th May 2004, a 100% Malaysian owned and operated company specialising in areas of trading and recycling of ferrous and non-ferrous metals, plastics, paper, cardboard and other industrial recycle waste.

From humble beginnings we have grown from a “small operation” into an organisation that boasts a modern range of technology and equipments to accommodate the ever changing needs of our clients and the environment in which we live in.

Gateweld provides services that are suitable for the local council, government, public and private commercial and industrial sectors throughout Malaysia.

Our wide range of services includes buying, selling and recycling of:-

- Ferrous and Non Ferrous Metals
- Plastics
- Paper and Cardboard
- PCB Boards
- E-Waste and Electronic & Electrical Waste
- Machinery and Equipments
- Recyclable Waste Removal

Gateweld is a well experienced company to handle all your requirements in a professional, safe and efficient manner yet focused enough to care about your individual needs. We strive to provide the best and most efficient service possible at all times-on time every time.

The possibilities are endless.

Quality Health Safety Environment Policy Statement

The management recognises the importance of safe working practices and will ensure highest compliance to the stipulated regulations and laws of the local council, state and federal government rulings and other applicable legislations to ensure the health, safety, and welfare of our employees and others effected by our business activities will not be harmful towards our people and the environment.

We strive to:-

- Provide and maintain our recycling yard, store and equipments and ensure working practices that are safe and without risk to health or environment;
- Ensure the correct use, handling, storage and transport of substances and articles at work that are safe and without risk to health and environment;
- Provide necessary information, instruction and training to all our staffs handling recycling items;
- Provide and maintain a safe place of work and ensure access to and egress from that place of work together with competent supervision;
- Provide a working environment that is safe and without risk to health and environment.

This policy will be reviewed annually and amended as required to take account of new legislation and improved working practices and brought to the attention of all employees.

Our Services

We are committed to high standards of Environment, Health and Safety (EHS) performance across our business. Our goal is to protect people, minimise harm to the environment and contribute towards sustainable waste management by recycling.

At Gateweld we are strongly focused on recycling, helping and advising customers to meet recycling targets and objectives whilst reducing volumes of waste going to landfill.

We can advise and manage all your recyclable and recoverable waste streams being produced, we can also recommend how to increase volumes being recycled and provide figures on the associated cost savings.

We collect your recyclables in our vehicle back to our site; this benefits you by not having to store up large quantities of a particular material or to incur transportation cost moving the recyclables.

Main Category	Waste Items	Products
Ferrous and Non-ferrous metals	Aluminum scrap Copper scrap Bronze scrap Aluminum cans Industrial scrap Iron & steel scrap and waste HMS1 and Light scrap Aluminum wires & cables Copper wires & cables Underground cables Jelly-filled cables	Aluminum Ingots Aluminum new cutting Copper bales Mill berry bales Copper nuggets Brass noble bags Brass scrap labels Bosporus bronze UBC aluminum cans Iron scrap Copper granulate Aluminum granulate PVC granulate
Plastics	Household & Office Plastic waste Car Industry plastic waste Electrical & computer plastic waste Industrial plastic waste	Palletized plastic Crushed plastic Bundled plastic Recycled HDPE blow
Paper	All types of paper and paper based products

<ul style="list-style-type: none"> • HDPE • HMW • LDPE • LLDPE 	Acrylic
	Noryl

Paper and Cardboard

We save trees by buying and recycling paper and paper based products, helping to save the environment for our future generations.

We buy the following paper based products but not limited to:-

- Newspapers
- Books
- Magazines
- Documents
- Cardboard
- Printers Waste Paper
- Waste Paper
- Computer Forms

PCB – Printed Circuit Boards

Gateweld deals with PCBs and PCB contaminated materials using safe and effective working practices. PCB waste, also known as printed circuit boards and green boards in electronics, comes in the form of production rejects as well as old dismantled devices containing circuit boards and components.

We handle all kinds of circuit boards, and specialize in industrial PCB contaminated waste such as transformers and industrial electronics.

E-Waste / WEEE – Waste Electrical & Electronic Equipment

We are an industry leader in the recycling and reuse of a vast array of end-of-life and obsolete computers, computer monitors, printers and other electronic equipment. In our continuing effort to offset the rapidly increasing burden on the environment, Gateweld addresses these issues through innovation and integration of the latest state-of-the-art recycling systems.

Using the latest environmental and ethical recycling techniques, we maximise the value of recyclable components and minimise the environmental impact of disposal. For example, with our recycling processes, rather than simply crushing equipment and sending them to landfill, as many components as possible are recovered, which can then be re-used in new applications. This minimises negative environmental impacts.

Telecommunication Waste	Mobile phones, Telephones, Telephone Exchanges, Wireless Equipments, Fax Machines, Equipment Cables and Etc.
Electrical Waste	TV, Refrigerators, Radio, Microwave Ovens, Conventional Ovens, Switches, Relays, Connectors, Air Conditioners and Etc.
Electronic Waste	All Types of Electronic Items.
IT Waste	Computers, Monitors, Printers, Routers, Servers, Scanners, Hard Drives and Etc.

Machinery & Equipment

Gateweld Sdn Bhd, is one of top Malaysian source for disposal of industrial machines and equipments which is not in working condition or machines which needs to be replaced with new ones.

We are specialized in buying all types of used machines and equipments for the purpose of disposal.

Recyclable Waste Removal

Our recyclable waste removal encompasses a wide range of services for various industries around the Klang Valley.

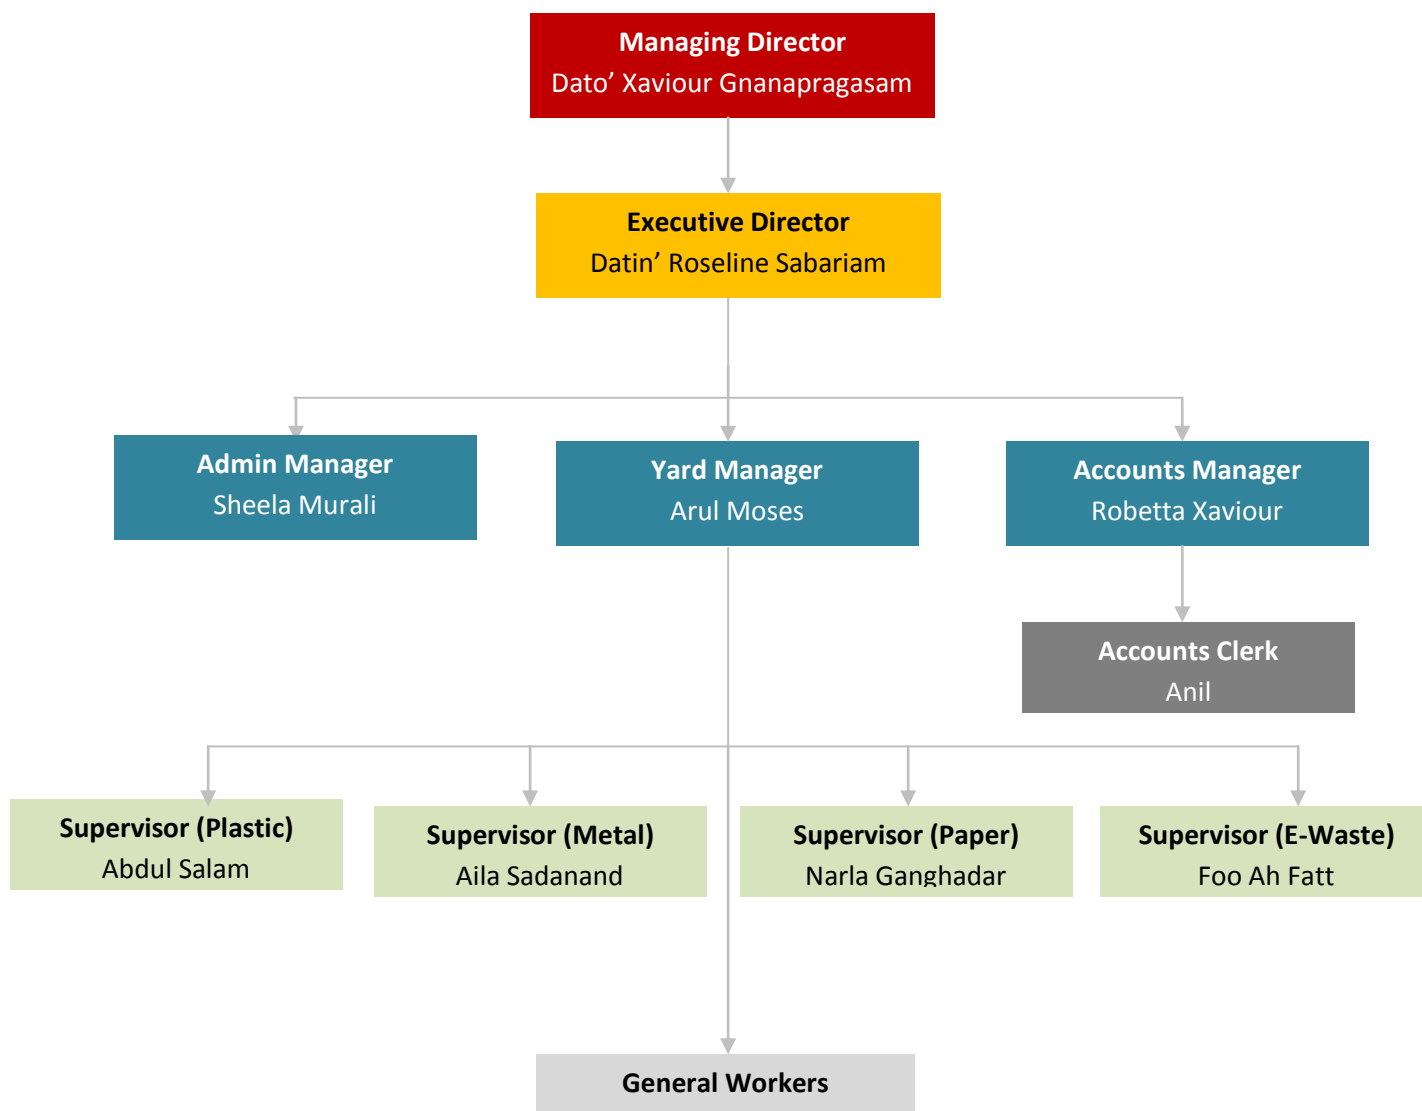

We manage and reduce waste from collection to disposal while recovering valuable resources and creating clean renewable energy.

At Gateweld we assist our customers to build and implement a comprehensive system for the disposal of recyclable waste with our professional expertise and experience across the whole waste management agenda.

All systems are tailored to the needs of our customers which range from MNCs to local industries and SMBs. We provide industry-specific solutions, so that our customers can continue running their core businesses hassle-free.
